REGINA.

—Rev. Mr. and Mrs. Halstead
and Mrs. Harrison, of Portage La
Prairie paid the capital a visit on
Tuesday.

—Jno. J. Landy, ex-mayor of
Peterborough, and two or three others,
accompanied by J. T. Stenshorn,
Dominion Immigrant agent, paid a
visit to the settlers on the bluffs to-
day, and were much gratified at the
crops seen.

—The Wascana baseball team
were here on Tuesday but could not
find the tournament in which they
were invited to take part. The Was-
cana boys intended to play on Wed-
nesday or claim the game and the
tournament prizes.

—Dr. W. G. Keown, surgeon
dentist, died suddenly Saturday
morning of heart disease. His death
was quite unexpected and caused a
shock. Deceased was much respect-
ed here, where he has resided for
the past two years. He was a na-
tive of Barrie, Ont., and was 29
years of age.

—The presence of malarial fever
here has led to enquiry as to the
cause. Not a few attribute it to
the water in the Wascana, which
is foul because of decayed vege-
table matter. Dr. Willoughby
says it is the grasses of the prairie
which parting with their pollen im-
pregnate the atmosphere.

—The want of committee rooms
in connection with the forthcoming
meeting of the Legislative assembly
will probably be met by the Gov-
ernment temporarily renting L. O.
Bourget's house. The new desks
for members have not yet arrived.
Though the date on which the Ter-
ritorial assembly will meet has not
yet been fixed it is pretty well de-
cided that it will meet during the last
week of October.

—There was a public meeting last
Friday night to re-organize the fire
brigade. Mayor Hamilton and
twenty-five others signed the roll.
The following were elected officers:
Alexander McDonald, chief; Charles
Slinn, first lieutenant; Charles Wil-
loughby, second lieutenant; W. R.
Riely, first engineer; Wm. Drever,
second engineer; Samuel Beech and
Alexander Sheppard, hose captains;
J. H. Haulty, R. McIlree, J. T.
Stenshorn, E. McCusker, branch-
men; R. Fisher, bugler.

REGINA FALL SHOW.

The fall exhibition of the Assini-
boia Agricultural Society was held
at Regina on Tuesday and Wednes-
day of this week. There were a
large number of very fine exhibits.
Every kind of farm produce indige-
nous to the Northwest was shown
to perfection. The large exhibit of
butter was the admiration of all.
The Indian exhibits from the Assini-
boine and Qu'Appelle reserves were
something remarkable, showing that
the former nomads of the prairie are
fast settling down in earnest to ag-
ricultural pursuits. Though the
attendance was large, it might have
been more numerous but for the fact
that the farmers are very busy with
farm work and anxious to utilize
the magnificent weather to pre-
pare as much ground as possible
for next season's crop. Prize list
will appear later.

PHEASANT FORKS.

—Messrs. Elkington and Benson,
of Fort Qu'Appelle, were here at the
Show and were offering high figures
for game.

—At the close of the Agricul-
tural Show on Thursday last, Mr.
David Cantelon sold by auction a
number of cows, etc., the property
of the family of the late M. Wil-
lows Drewry, which realized very
fair prices.

—The Agricultural Show of this
locality was held on Thursday, the
27th inst. There was a good attend-
ance of exhibitors and sight-seers.
About 550 entries were made. The
horses, cattle, sheep, swine and poul-
try were a good show, while the
roots and vegetables were of fine
quality. In consequence of the
lateness of the harvest, not much
grain was shown, but some good
samples of wheat, oats and peas
were exhibited. There was a large
exhibit of butter, cheese, bread and
ladies work, which was of a high
class and reflected great credit on
the producers. Full particulars of
prizes awarded, will be given next
week.

Average attendance, 21.

SINTALUTA.

—Through the efforts of Mr.
C. G. Boothe, of the post-office
store, a wheat market has been es-
tablished at Sintaluta. The prices
paid are as high as any where on
the line. The farmers in the vicin-
ity need not now lose so much time
in marketing their wheat. Mr.
Boothe keeps on hand at reasonable
prices a first class stock of general
goods in all the various lines.

EDMONTON.

Edmonton Bulletin.

—Two and a half degrees of
frost on Tuesday night, September
18th the first of the season, marked
the end of summer and the begin-
ning of fall.

—The demand for binding twine
is still in excess of the supply.
The crop requires from three to
four and a half pounds of twine to
the acre to bind it.

—The contract for supplying the
police at Edmonton with potatoes
has been let to R. McKernan at 46
cents per bushel; at Fort Saskatch-
ewan to L. Moret at 50 cents a
bushel. Coal at Edmonton will be
supplied by Frank Hall at \$3.20 a
ton. No tenders for bran were re-
ceived.

Montreal, Oct. 1.—Wm. Ogilvie,
head of the great milling firm, this
morning said that the rise in wheat
was due to the disasters which had
befallen the harvest in this country
which had been general also in Eu-
rope, a phenomenon due to the ordi-
nary law of supply and demand and
immediately to the perception of
some who had seen what others had
not. The Chicago corner had been
the result of some men losing their
heads and others doing what any
one might have done. "Canada
has now," said Ogilvie, "nothing for
export and before the year is out it
will be found that the United States
has nothing either. There will be
wailing in many farming circles
which have sold grain that should
have been retained." Ogilvie then
explained how Manitoba wheat had
been stricken by two frosts in Au-
gust and though the effects were de-
clared to be nothing the fact remain-
ed that they were most disastrous,
as present events proved. The rise
is permanent and comes to stay.

STARVING INDIAN.

Saskatchewan Herald.

The following dispatch has been
sent out to the world from Ottawa,
under date of September 13:

"Latest advices from the North-
west Territories report great suffer-
ing and many deaths amongst the
Indians of the Canadian North-west
Territories. From Peace River Dis-
trict several cases of starvation and
one of cannibalism are reported.

"Last session Parliament voted
the sum of \$554,000 for supplies for
deserted troops Indians of the
North-west Territories, but from
what has been learned it appears
that dishonest agents who were en-
trusted with its distribution have
appropriated the greater portion of
the grant."

The above paragraphs are taken
from the despatches sent to the
Eastern press as giving news from
the West. Part of the first one is
unhappily in accord with news re-
ceived from the Peace River coun-
try, and the sad state of things re-
ported as existing there must be
viewed by every one with regret,
and any measures that can be de-
vised whereby their sufferings can be
relieved will meet with hearty en-
dorsement. But the cause of their
sufferings cannot be charged upon
the Government. A similar state of
affairs has occurred periodically as
far back as the history of these peo-
ple goes. Even in the days when
the buffalo were most abundant—
when it appeared as if the Indians
had but to kill and eat, and before

the Government had anything to do

with them—the Indians on the
plain suffered from hunger, and at
times starvation thinned their ranks,
even in the days when buffalo were
thought to be inexhaustible in num-
bers and formed almost their only
article of food.

The second paragraph is made out
of whole cloth. The man who
wrote it either cares very little for
the truth or for his own reputation.
Were it not that he makes mention
of the treaty Indians of the Terri-
tories it might be thought that he
was mixing up Peace River affairs
with those of the Territories; but
his charge that the treaty Indians of
the North-west are starving excludes
him from this charitable supposi-
tion. Rumors of starvation among
the Indians have often been set
afoot by people who were seeking
an opportunity to condemn the Gov-
ernment or the Department of In-
dian Affairs, but the most superfi-
cial investigation showed them to be
always groundless.

The cry of "starving Indians" is
this year most absurd. Though at
all times inclined to grumbling, the
Indians have this year indulged in
the habit less than usual. They
have had plenty to eat, and have
expressed themselves as being as
well satisfied as it is possible for an
Indian to be. They have good
crops, and will be served out with
rations as usual; and in this respect
they are better off than many fami-
lies in the Territories and the East-
ern Provinces.

It is perhaps as well that the au-
thor of the paragraphs quoted should
have begun with such an extrava-
gant budget of news. It makes it
plain that his desire is to create a
sensational, and this will throw dis-
credit on any further exhibitions he
may make of his skill in devising
falsehoods—a faculty in which he
has attained a bad pre-eminence.

He has over-shot the mark in re-
ference to the misappropriation of the
Parliamentary grant for Indians.
It is an insult to the members of the
service to say that they are dishon-
est, and a greater insult to the intel-
ligence of the public to suppose that
such wholesale misappropriation of
funds as he alleges could be carried
on without detection. The diversion
of half a million dollars from its le-
gitimate purpose could not be affect-
ed or even attempted without at-
tracting attention of others than our
paraphraser, and it would not have
been left to him to make the discov-
ery.

The only "destitute Indians" in
the Territories are the aged, infirm
and sick,

EXHIBITIONS' WEEK.

Every day this week there has been or will be an agricultural exhibition in the District of Assiniboia. Those which have already taken place have been wonderfully successful. The weather has been very fine, the exhibits have been practical demonstrations of the fact of a magnificent harvest, and the attendance and entries have shown that our farmers are alive in taking advantage of the wonderful capabilities of our soil. Those yet to be held in the district will no doubt be as successful as those passed, if the weather continues fine. The rivalry that is stirred up amongst the farmers by these shows is an excellent thing for the country, and the money expended in their aid by the Dominion Government is productive of great benefits to our farmers in stimulating them to keep the best grades of stock and raise superior kinds of grain and other products.

We trust the farmers and others who ought to be interested in the Indian Head and South Qu'Appelle shows to-morrow and Saturday will make it a point to turn out and swell the number of entries as well as the attendance. The people in this vicinity should take a deeper interest in the Qu'Appelle show, for we are convinced that if they turn out and take hold of the exhibition, they have the articles and the stock to show, and they can make it the most successful of all those held in the district.

A CANADIAN FARMER'S REPORT.

It will be remembered by some of our readers that Mr. W. A. Webster, a farmer from eastern Ontario, took a trip about a year ago through this district, and made enquiries respecting the prosperity and doings of the settlers. Mr. Webster had just been on a tour through twenty-seven counties of Dakota and Minnesota, having worked his way more on foot, horseback and buckboard than by railway. He had been all through Manitoba in the same way. The result of Mr. Webster's investigations have just been published in pamphlet form in which he makes some very striking comparisons between Dakota and Minnesota on the one hand, and Manitoba and the North-West on the other. The home life of the average settler across the international boundary line will not bear scrutiny or comparison with those on the Canadian side. The settlers south of the line have difficulties and hardships to contend with that those on this side never dreamed of. We give the following extract from the pamphlet, which shows the nature of some of Mr. Webster's investigations in this district:

I now worked west to Wolsley, a growing town on the C. P. R., with a first class flour mill (roller process) and wheat elevator. Here is the residence of Mr. W. D. Perley, M.P. for East Assiniboia. He showed me over a good deal of this section, away north to the Qu'Appelle river—a fine stock country. The beef they make right off the grass is very surprising. Fortunes could be made here in sheep growing. I do not believe there is any healthier climate on earth for man or beast than this. South of Wolsley is a fine rolling prairie, with timber bluffs and plenty of grass and water. Immigrants coming here to look for land, if they would call on Mr. Perley, would get all the assistance they might require, as he is well acquainted with this

section, and there is plenty of good land to homestead. A cheese factory is being built, but any man who wishes to engage in sheep-growing as a specialty, had better examine Wolsley carefully.

I moved along west to Indian Head, where it is real prairie; no finer land on earth; good rich black clay, full of vegetable matter, and not one stone. A plough could be run for miles in one straight furrow. Mr. Mackay, of this place, said to be one of the best farmers in the Territories, drove me away north, across and beyond the Qu'Appelle valley, out over the Pheasant plains. It was a sight to behold. Wheat! Wheat! Wheat! in every direction. Bladders at work everywhere, cutting and binding the grain which will average 30 bushels to the acre. Fine farms and buildings, and roads and stock—the happiest lot of farmers I ever met; and all this going on where a few years ago the wild Indian and Buffalo held undisputed sway. In the Qu'Appelle valley thousands of sheep could be raised. There is grass, pure water, shade and shelter—a grand place for sheep-raising. The cattle are all fat, even the milch cows are now good beef, and they are giving lots of good rich milk. Here is the Bell Farm with 4,300 acres of wheat now ripe. This is a sight to look at. South from Indian Head there is rolling prairie—good land here to homestead.

Further west I visited Qu'Appelle town and station; a real live town, a good grain market, with a flour mill. The trail goes from here to Prince Albert and Edmonton, to which places a railroad is being built, and also south to Wood Mountain. This road will pass through good land. I went over a good deal of it. There is plenty of grass, water and wood on it. I will give the story of one settler here. A Dundas came here from Scotland five years ago, a poor man without a dollar, and settled on a homestead six miles south of Qu'Appelle. I went over his farm of 320 acres. He is now cutting a fine crop of barley; a fine crop of wheat is ripe; he has a large crop of field roots and a vegetable garden. His wife showed me the dairy and told me (what I have heard up hear for the thousandth time) that the milk is far richer and will make more and better butter than in either Ontario or Scotland. He has a fine herd of cows, good teams and implements, and is out of debt. This man is today as independent as the "Laird," whose tenant he used to be in Scotland. What possibilities here for industrious men and women—plenty of land, here to homestead and it can still be bought cheap in sight of the town.

While here, I went south-east to visit one of the Indian reserves of which we have heard so much. I travelled over twenty miles of rolling prairie with bluffs of timber, and plenty of grass and water. This Reserve was formerly known as "Piapot's"; it is well located on high rolling land with plenty of timber for shelter and fuel. There are a large number of Indians on it; one was cutting hay with a pair of oxen hitched to a mowing machine, and he was doing it well. A boy was raking with an ox hitched to a hay rake, others were hauling and stacking it, and all was being done quietly and well, under the supervision of the farm instructor. Two Indian boys were grinding mowing machine knives (a difficult task) and did it well. The Indians had growing and nearly ripe 100 acres of wheat, and a quantity of other grain, a fine lot of roots and vegetables, and a splendid garden. Mr. Grant, the Indian Agent, showed me the offices, shop, storeroom, &c. The Indian women had just finished knitting several hundred pair of wool mittens, and I never saw better. In the storeroom, I saw the provisions, fresh beef, bacon, flour, all of first quality; a medicine chest well stocked; tools of all kinds. I visited the school room. The teacher exercised the boys and girls in reading, spelling, writing and arithmetic; and the progress exhibited by these Indian boys and girls would have done no discredit to a country common school in Ontario. Mr. Grant is now teaching the women to spin yarn and weave it into cloth, and they will soon clothe themselves and do it well. Mr. Grant expects, in a few years to make this Reserve self-supporting. He is beloved by all the Indians on the reserve. I left it feeling that all was being done that could be, to improve those children of the plains.

If immigrants coming to Qu'Appelle, will call upon Mr. Baker, Immigration Agent, or Mr. Osler, Intelligence Agent, they will get all necessary information as to land, location, &c. Grass, water, hay and wood are plentiful. This is a most excellent dairy country, and men wishing to engage in cattle and sheep growing will find Qu'Appelle a most desirable place. Society is good, and there are churches and schools. Some wealthy English philanthropists have started a Model Farm and School near this town, a grand institution.

If the Qu'Appelle correspondent of the Regina Leader will attempt to refute our arguments on Prohibition which is THE question of the Northwest Territories at the present time, we will try to make it interesting for him. His reference to THE PROGRESS betrays more interest in the question than he affects to entertain. Our columns are open to him and he has now a chance to show up or shut up.

THE "USE" A MISTAKE.

A ROUSING LETTER FROM A NOBLE MAN.

We cordially commend to our readers the sentiments of the following letter, which was written by the late Rev. Father Stafford of Lindsay, in response to an invitation sent him by Mr. Mitchell of Guelph to visit the county of Wellington and address the electors at the time of the Scott Act campaign:—
My dear Mr. Mitchell,
I cannot go up to Guelph at present; perhaps I may be able to go up next spring or summer. I do not like to refuse altogether. I do not like to let any opportunity pass for saying a word against the use of liquor. I am daily becoming more and more fanatical—not against the abuse—the whole world is against that—but against the use of intoxicating liquors as a beverage. I think the use, such as is made of strong drink in our day, and everywhere among our people, is a mistake. I think we should be better, happier, more comfortable, richer, better educated, better physically, morally, socially, politically and religiously, better every way—much better altogether without liquor than even with a little of it. I do not think there can be found the shadow of the shade of the semblance even, of one good reason why the use of liquor should be tolerated, as it is at present. Even the medical profession is becoming more and more against it every day, at least the leading men in that noble profession. They are prescribing liquor less frequently and with more caution; such as they observe in the prescription of the other powerful drugs. But even if the whole profession recommended it use medicinally, I, as a clergyman, from my point of view, and on account of the dreadful effects it has on the immortal part of man, would say to the sick, "don't taste it." It is doing too much harm to both body and soul. I don't taste it. I would not risk one immortal soul for all the good to be got out of liquor. This is my view of this matter, and there is no fanaticism about it. There is no exaggeration in it. To exaggerate you must go beyond the truth. In this case such a thing is an impossibility, for the very simple reason that you cannot get at the whole truth. No tongue can tell the evils caused by strong drink, because they project into eternity. Meantime, we must all work on with patience, hold what we have, and look for more. Please tell your fellow laborers that I thank them for the invitation, and hope I may meet them and perhaps say a word to help them before long.

Your obedient servant,
M. SAFFORD.

Northwest Prohibitory Alliance.

The Northwest Prohibitory Alliance was organized at the Preliminary Temperance Convention held at Regina on the 22nd November, 1887. A copy of the constitution is herewith enclosed.

SECRETARY'S OFFICE.

Qu'Appelle, Aug. 28, 1888.

DEAR SIR:

At a meeting of the Executive of the Northwest Prohibitory Alliance held at Regina on Saturday, 21st July last, a Committee was appointed to prepare and circulate an appeal to our Temperance friends in the Northwest to organize in every locality for the coming contest. The Committee beg to submit the following for your consideration:

The result of the late elections to the Northwest Legislature was that nearly every one of the twenty-two members chosen is pledged to sustain the present law until such time as the people may be given an opportunity to vote on the question. One of the first acts of His Honor Lieutenant-Governor Royal was to introduce the principle of license by granting permits to sell four per cent. beer. This was directly contrary to the expressed wish of the people, and prompt and aggressive organization is imperatively necessary to resist this and protest against any other concessions.

It is proposed to hold a

TEMPERANCE CONVENTION

And the first annual meeting of the Northwest Prohibitory Alliance at Regina in the second week of the coming session of the Legislative Assembly, and it is imperative that such Convention should be as representative as possible.

Let meetings for organization be called in every locality, and let one or more delegates be appointed to attend the convention. As soon as the date of the meeting of the Assembly is announced you will be notified of the exact date of the Convention. It is the duty of every man who is opposed to the introduction of the License System into the Northwest Territories to see that his own locality has at least one representative at our Convention.

Let there be a Grand Rally so that our Temperance vote may be united to carry into effect the resolutions, etc., that may be adopted at that meeting.

In behalf of the cause of Temperance and Prohibition.

G. H. V. BULYEA, President Alliance.
JAMES WEIDMAN, Secretary
G. B. MURPHY, Committee.

FATHERS OF CONFEDERATION.

We will club the Winnipeg Sun and THE QU'APPELLE PROGRESS for \$1.75 per annum including the above valuable picture.

The Winnipeg Sun has arranged for a supply of the historic picture entitled "The Fathers of Confederation." It is a delightful engraving of artistic finish, 26½ inches by 37½ inches in size. It embodies life-like portraits of thirty-four of the leading men of Canada in 1864, including Sir John A. Macdonald, Sir George E. Cartier, T. D'Arcy McGee, Hon. George Brown, Hon. Oliver Mowat, Sir Charles Tupper, and Sir E. P. Tache. The scene is in the conference room at Quebec, the windows of which overlook the harbor and shipping, and the occasion is the conference which resulted in the confederation of the colonies in 1867. It is a charming work of art, and possesses great historic interest. It is given free to every yearly subscriber to the weekly Sun, the price of which has been reduced to \$1 per annum.

grape-vine embraces this part of the exterior wall, extending to the window around which it is trained. The furniture is of the excellent kind usually found in the mansion of a gentleman—chairs, couches, tables, and other similar effects, being of solid walnut, beautifully carved. A tall, massive book-case of unusual size occupies a considerable space at the extremity. I learnt that this had been placed here as a matter of convenience by Mr. Pavenport, who himself has it keys. On getting it opened I found it

massive piece of furniture were the open, and a burly figure, followed by three other figures more or less formal, leaped upon the scene. "Suppose we reserve these papers for another process," the burly one went on, consulting them from the table into pocket. "Suppose we take a little le and judicious advice upon the subject for we commit ourselves to any action. What do you say? Agreeable

"What is the matter?" inquired I.

"Hush!" said Reginald. "We told you might come down, so we stood to intercept you. There has been a student, and your presence can do good."

"It is all right, so far as we are concerned," said the detective, with a smiling glance. "We have trapped birds—one of them, at least—and other trapped himself very effectively. To-morrow, as I told you, Mr. Lawton will be free."

"And what does my little Edith think?"

"Come hither, child, and breathe life into your father's car."

Edith placed her arms around her father's neck, and drew him close down to her blushing cheek.

"Oh! that's it, is it?" he said to her by whisper. "Then there is left for me but to turn you round and crop, out of the house, with

Little Local Links in the Town's Chain of History.

QU'APPELLE.

—Cloudy.
—Threatening rain.
—Indian Heal show to-morrow.
—Next Sunday the usual monthly services take place in the Roman Catholic church.

—The Sykes farm wheat will average over 35 bushels to the acre, and the oats 80; one piece of oats will go 100 bushels to the acre.

—The well at McMillan Bros. mill is now down about 270 feet. Unless water in abundance is obtained sooner, the intention is to sink to 300 feet.

—Two car loads of heavy draft, saddle and buggy mares and geldings will be shipped to this point to-day from Calgary by the Bow River Ranch Co. See supplement.

—Yesterday the citizens organized a fire extinguishing party and started toward the McLeish farm to arrest a prairie fire, but found that section foreman Clarke was only burning a fire break along the C. P. R.

—A charge has been laid against the engineer and fireman who were in charge of the C. P. R. engine which started the fire just west of here on the 18th ult. They will be brought before a magistrates court here to-morrow (Friday).

—The members of the committee which had charge of the arrangements for the C. P. R. picnic are requested to meet at Mr. G. H. V. Bulyea's store on Tuesday evening next for the purpose of auditing the accounts and other business.

—Service in the Methodist church next Sunday morning by Rev. A. Andrews, and in the Presbyterian church in the evening by Rev. I. Macdonald. Rev. Mr. Macdonald will preach at McLean school house Sunday morning at 11 o'clock.

—His Honor Lieut.-Governor Royal has returned from the East, and opened the Regina Agricultural show on Tuesday. He went to Moosomin yesterday morning to open the agricultural show there to-day. He will open the South Qu'Appelle show here on Saturday.

—Miss Bell, who was visiting her sister, Mrs. J. P. Beauchamp, of this place, returned to her home, Lacrosse, Wis., on Friday last. Although Miss Bell remained here only a short time she made numbers of friends who regret her departure and wish her a quick return to Qu'Appelle.

—At the Queen's: S. A. McGaw, W. Inman, W. Fymon, J. Lamb, E. McDonald, Regina; W. Driever, Prince Albert; R. Scott, W. S. Grant, Indian Head; H. Mitchell, M.L.A., Batoche; G. I. Clink, Battleford; G. Goldie, Rev. M. Le June, R. Hockley, J. Belange, Fort Qu'Appelle; W. Vicars, A. McLaughlin, Devil's Lake; J. E. Dugway, Lethbridge; F. W. Dowell, G. McConnell, Vancouver; B. Ford, Toronto.

—At the Leland: C. Gusleau, Victoria, B. C.; F. M. Bell Smith, London; F. Lightcap, R. T. Hugard, J. C. Gillespie, L. C. MacIntyre, H. Bell, F. B. Lyttell, J. C. Maenal, J. Casey, S. R. Edwards, Winnipeg; Miss Lindsay, Whitehead; Miss Mulligan, Touchwood; T. Malcolm, Brandon; P. T. Blackwood; W. Tait, C. R. Stovel, R. T. Goodfellow, Prince Albert; Mr. and Mrs. Rose, Tacoma; A. Francis, Grenfell; C. C. Sabin, Montreal; J. Thorburn, E. A. L. Green, Fort Qu'Appelle; W. S. Crone, Toronto; T. B. Montgomery, St. Paul.

—On Saturday last we had a visit from Mr. F. B. Lyttell, the live and pushing business manager of the grand dramatic musical entertainment given by the brilliant and world-wide popular artists, Mr. and Mrs. John Jack (Annie Firmin). These artists with their juvenile vocalists, only eight years old, Master Arthur Firmin Jack, will give their entertainment in the immigrant building on Friday and Saturday nights of this week. Adults, 50 cents; reserved seats, 75c; children, half price. Tickets for sale at the stores of Messrs. S. H. Caswell and J. P. Beauchamp.

—As will be seen by an advertisement in another column, now is the time for any one having land or a farm to dispose of, to get it well placed. Mr. C. E. Cullen, as our immigrant agent, will visit England and Europe this winter and will be able personally to bring to the notice of probable purchasers property for sale and furnish full particulars. Mr. R. D. Strong will at all times be on hand to give both sellers and buyers every information required and complete all negotiations. A better arrangement than this could not possibly be made, and we recommend all interested to communicate with the above.

—The Wapella correspondent of the Journal calls Sergt. Fyfe the Pinkerton of the Northwest.

—The evangelistic services in the Methodist church will be closed on Friday night. Rev. Mr. Savage goes east to Virden.

—The Temperance meeting announced for Monday evening next is still further postponed. The date will be fixed later.

—Provide every possible protection against prairie fires and thus keep our bluffs growing. Plow up your fire guards afresh, and make new ones where required.

—It is reported that a large amount of damage has been done on the Pheasant plains by prairie fires this week. We have heard that some buildings were burned, but cannot obtain particulars.

—The S. Peter's Women's Guild, (late Ladies Aid Society) will have a room fitted up in the immigrant building provided with refreshments for the convenience of those attending the South Qu'Appelle Agricultural exhibition, on Saturday, Oct. 6. Tea, coffee, sandwiches, bread and butter, cake, etc., at reasonable prices. Proceeds in aid of the church fund.

EXHIBITION NOTES.

—Be on hand in good time with your exhibits.

—Attend the South Qu'Appelle show, Saturday, the 6th inst.

—Enter and make an exhibit whether you expect a prize or not. Help make a big show.

—His Honor Joseph Royal, Lieut.-Governor, will open the exhibition with an address.

—Come to town show day, and prepare to purchase goods at Mr. S. H. Caswell's store. He adds new lines all the time.

—Mr. J. P. Beauchamp directs attention to his new fall and winter stock. Give him a call show day, and suit both taste and pocket.

—If you do not get a prize be content to know that your exhibit helped to increase the number of entries and make the show larger. Try again next year.

—Make your entries at latest the day before the show. Do not come rushing in the morning of the show and cause confusion by requiring everything to be done the last minute.

C. P. R. EXCURSIONS TO THE PACIFIC.

The Canadian Pacific Railway Company's agents at Winnipeg, Qu'Appelle, Donald and other intermediate stations, will sell first class tickets to Vancouver, B. C., and return, good for thirty days, at forty dollars, good only on Pacific express, and leaving Winnipeg and passing Qu'Appelle on the 9th, 16th and 23rd inst. These tickets will enable excursionists to stop over on return trip at points of interest in the mountains and to leisurely enjoy the world famed scenery, the awe-inspiring grandeur of which cannot be described. These cheap excursions are given in order that the privilege of seeing these wonderful and varied sights may be placed within the reach of everybody. The memory of a visit even to Banff hot springs, the Canadian National Park, can never be effaced. An Elysian paradise with its magnificent hotel equipped with every convenience that ingenuity can suggest. Its hot sulphur springs, the curative powers of which have made them famous. Its drives, its fishing, its shooting, and its supreme natural beauty. Field, in the heart of the Rockies, will well repay a sojourn at its pretty chalet-like hotel, the "Mount Stephen," a favorite stopping place for tourists. Also at Glacier House, in the Selkirk Range, and within view of the Great Glacier, an immense sea of ice surrounded by lofty mountains. The hotel is delightfully situated at the foot of Sir Donald Peak, rising 8,000 feet above, while in the valley below flows the Illicilwaet. Within a short distance is that marvelous piece of engineering skill the Double Loop. On through to Vancouver an ever varying panorama presents itself to view, riveting the attention and enhancing the enjoyment of the trip. To ensure comfort on the trip it has been decided to limit the number of tickets to 100 per train. Therefore, to ensure passage, intending excursionists should send their names to the nearest Agent, or to the General Passenger Agent, Winnipeg, at least two days before the dates for leaving Winnipeg, mentioned above. This is important. Also state if first-class sleeping car accommodation will be required.

Word has been received from the northern interior that a great many deer have this season perished on account of the multitudes of mosquitoes that infested the forests. The deer drew them into their nostrils in such numbers that death ensued from suffocation.

We have met with the following cheap mode for painting out door structures: Make four gallons of paste of rye flour, like the paste used for papering rooms, and then mix in one gallon of common oil paint. This will cover as much surface as five gallons of paint alone. For the second coat add two gallons of oil; and three for the third. These three coats will last about as long as the coats of oil paint. A good paint for brick is made of fresh lime wash and sulphate of zinc.

Six Joseph Whitworth was the first to inaugurate a system of Standard screw threads. The form of thread, and the number of threads per inch which he recommended, were based partly on the results of numerous experiments and partly on the average obtained by comparing the various forms of screwed bolts then in use. The Whitworth system has been very generally adopted in all parts of the civilized world except the United States. The Seller system introduced here in 1864 has the same number of threads per inch, but the form of the thread is different.

A BOX FOR PLAYTHINGS.—I would suggest to mothers of little children to have a box large enough to hold all the children's playthings, and small enough to slip under the bed, table or lounge, then give one corner or side of the room to play in. Insist that they keep within their limits. Sometimes they will enjoy living under the table, for children soon tire of one place. Then see that everything is replaced in the box until wanted again. This will teach the children order, and will be much easier and pleasanter for mothers than the usual way of keeping the whole room in disorder, for children soon get tired. If toys are not furnished, they still have their little treasures of broken crockery or bright pebbles, rags, dolls, etc. Little boys enjoy playing with small blocks, such as carpenter's make at their work. If nothing better is to be had, get them blocks.

STUFFED GREEN PEPPERS.—Stuffed green peppers are prepared in this way: Take the green peppers, wash them and cut two-thirds around the stem, so that it remains attached to the pepper, and remove all the seeds. Make a stuffing of two quarts of finely-chopped cabbage, half a cupful of grated horse-radish, three tablespoonfuls of celery seed and two tablespoonfuls of salt. Fill the peppers with the mixture, putting into each pepper one tiny cucumber and one small onion. Replace the stem and fasten it with string. Put the peppers in a large unglazed jar, cover them with cold vinegar and place a muslin bag with a thin layer of mustard seed over the top. Cover the jar in a cool, dry place.

OATMEAL DRINKS.—Put into a large pan a quart of a pound of fine fresh oatmeal, six ounces of white sugar and half a pound of butter cut into small pieces; mix with a little warm water; then pour over it one gallon of boiling water, stirring all together thoroughly, and use when cold. This makes a most refreshing and strengthening drink. If preferred, raspberry vinegar, citric acid or any other flavoring may be used instead of the lemon. More oatmeal may also be used if preferred.—Second: Six ounces of fine oatmeal, four ounces of cocoa and eight ounces of sugar mixed gradually and smoothly into a gallon of boiling water. Use when cold.

DIETETIC CAKE.—Take two cups white sugar, one cup butter, one cup sweet milk, three eggs, one teaspoonful soda, one scant teaspoon cream tartar, three cups flour. Stir butter and sugar together and add beaten yolks of the eggs. Then add the beaten whites. Dissolve the soda in the milk, mix cream tartar in the flour, and add the last thing. For icing for the above take one and one-half pounds loaf sugar; and add three gills of water; put on the stove and let it simmer until it ropes, then put it in a dish and let it stand until milk-warm. Add the white of eight eggs well beaten. Beat the whole one hour and it will be ready.

and read it. He will find there a full line of information about Dairy, Stock Breeding, Field and Garden Work, sketches of the best farms and most reliable modes of cultivation, news notes from all parts of the country, valuable discussions by practical farmers of the most important aspect of every branch of Northwestern farming. For the household there will be found selected readings, grave and gay, in prose and verse, and no pains will be spared to keep the publication abreast of the wants of the times. Our motto is suited to the latitude and longitude of the centre of the Dominion and only such papers as are really appropriate to the wants of the country ever find a place there.

New subscribers will receive in addition their choice of the following premiums: The celebrated picture "The Horse Fair," The Standard Poultry Journal, or Home and Health.
Subscription \$1 Per Annum.

THE WANZER
SEWING MACHINES
Received the following unprecedented distinctions at the Vienna Exhibition, 1873:
TWO MEDALS OF MERIT.

A distinction not obtained by any other Sewing Machine at the Exhibition. ONE GRAND SILVER MEDAL for the best Family and Manufacturing Sewing Machine.
The Emperor of Austria conferred upon Mr. R. M. Wanzer, THE IRON CROSS, and knighted him with the order of FRANCIS JOSEPH THE FIRST, for his valuable services in the Sewing Machine business, which were the highest honors conferred at the Exhibition. Mr. Wanzer is the only Sewing Machine manufacturer in Great Britain or its Colonies who received those distinguished honors.
